BSc Mathematics
The New College, Kolhapur
2018 - 2021

MSc Tech (IMCA)
Shivaji University, Kolhapur
2021-2024

OBJECTIVE

Passionate full-stack web developer proficient in ReactJS, Node.js, Express.js, and MongoDB. Skilled in building dynamic and responsive web applications that deliver exceptional user experiences. Experienced in both front-end and back-end development, with a focus on creating efficient, scalable solutions. Committed to staying current with industry trends and best practices, and eager to contribute to a collaborative team in developing innovative web applications that drive business success.

PROJECTS

VibeChat

- Built a real-time chat application using React.js, Tailwind CSS, and ShadCN for a responsive and modern UI, integrating Socket.IO for instant messaging.
- Developed a backend with Node.js, Express.js, and MongoDB to manage data efficiently and support seamless chat functionality.
- Implemented secure user authentication and optimized state management to enhance performance and user experience.

Male Fashion E-commerce

- Developed a dynamic e-commerce platform using React.js and Bootstrap for a responsive and user-friendly UI, integrating debounce for optimized search functionality and API calls.
- Implemented backend architecture with Node.js and Express.js, utilizing MongoDB for database management, ensuring seamless data storage and retrieval with RESTful APIs.
- Enhanced application performance by implementing efficient state management, optimized API calls, and database queries, improving loading times and overall user experience.

Travela

- Designed and developed a responsive UI for a travel-focused website using React.js and Bootstrap, featuring dynamic tour packages and seamless navigation across devices.
- Implemented mobile-first design principles to ensure optimal user experience on all screen sizes, prioritizing accessibility and intuitive interfaces for travel bookings.
- Utilized modern frontend development techniques such as reusable components, responsive design, and custom styling to create an engaging and visually appealing platform for users.
